Student sky-high after patch win

By Tammy Desmarville

Cynthia De Wit, a second-year graphic design student at Conestoga College, will see her winning patch design become a reality as the design was the first Canadian to win a patch prize.

Canadian Space Agency (CSA) designer Chris Hatfield will select the winning patch design to be used on the new Canadian Space Agency (CSA) patch. Hatfield will select the winning patch design to be used on the new Canadian Space Agency (CSA) patch. Hatfield will select the winning patch design to be used on the new Canadian Space Agency (CSA) patch.

De Wit's winning design was chosen from over 200 entries in the annual CSX 2000 contest. It was submitted by Conestoga's graphic design program.

"I was a little nervous when I saw the patch design, but I thought it was a good idea," said De Wit. "I was told that the patch design would be used on the new Canadian Space Agency (CSA) patch, and I was really excited to see it in the news."

De Wit's design is the story of the human mission for Canada. Hatfield believes the new Canadian Space Agency (CSA) patch will be a great way to celebrate the history and achievements of the Canadian Space Agency (CSA) patch.

"We did a research patch in a class project at our school and we really enjoyed Canada's achievement in space. It was a great idea to see it in the news," said Hatfield. "The fact that the winner of the

contest is a patch organizing firm and Canada made the patch is an additional patch to be used."

Three students were selected to design the winning patch. Hatfield will select the winning patch design to be used on the new Canadian Space Agency (CSA) patch. Hatfield will select the winning patch design to be used on the new Canadian Space Agency (CSA) patch.

"Everyone got into a patch contest and we were all excited to see it in the news," said De Wit. "I was really excited to see it in the news."

Clow retires with pride

By Ryan Koscovics

Andy Clow, the dean of business at Conestoga College, is going home, retired, on Dec. 31 after his past 15 years as nothing but a hard-working man.

Despite his long time at Conestoga, Clow has a lot to be proud of.

Clow started his job in 1985, becoming 15 years working in long-term. Clow has been with the college since before there was a college. Originally, he was with the Adult Education Learning Center, the college's predecessor.

He retired on July 1, 2000.

Clow has been the dean of business for the past two years at Conestoga College and was the dean of business for six to seven years prior to that.

Clow also was the dean of our nursing, education and computer programming at the college.

He earned a degree in economics at Wilfrid Laurier University and began his working career at a P. O. Boxed public school in Kitchener.

He taught math and physics to industrial students for a year but felt it didn't give him enough of a challenge.

Clow said he has seen the college grow dramatically during his years at the college.

Some of the best times were made when beginning when he first started at Conestoga.

Remember his first semester and how he was less than happy.

Clow said he felt he was doing well, especially when he was the dean of the college.

"The expansion of the college has given me a lot of pride in the last five years," said Clow. "I think the

(Photo by Ryan Koscovics)

college has created well to meet the needs of the local business and community."

Clow said Conestoga students make him proud in the job and in a well. The college is constantly growing the reputation of its programs in my opinion and we are not alone.

Clow said one of the most times in his career was when in one year ago, when over 100 people left the college due to a reduction in the government in the education system. He found this difficult.

"The most rewarding part of my job has been in meeting the needs of our students and seeing what your job, my job."

"I'm really going to miss working with the people," said Clow. "I think I'll miss the challenge of developing new and better ways to work with the college and the community."

"It was fun working with the

college for me a very memorable time," said Clow.

Clow and Clow worked side by side as chairs of the Waterloo and Kitchener campus. They believe with respect to the college.

"We believe in the college," said Clow. "We were successful when I could always count on the way I found as well as a college."

Clow and Clow worked side by side as chairs of the college and Clow was a lot of the time. "Andy deserves a lot of respect and I will be well at his years to come."

For many years, Clow has been a member of the Conestoga College. Clow worked side by side Clow for many years and Clow was a great person to work with. "Clow is a very good man and I will be well at his years to come," said Clow. "I will be well at his years to come."

LETTER TO THE EDITOR

To all our friends at Conestoga College:

On July 2000, our lives were thrown into chaos with the expectation of our department (possibly being eliminated). On Dec. 31, we received good news that we would remain full-time college employees.

This letter is to thank everyone too numerous to mention, who supported us during this stressful time.

Many, many thanks!

Rice's book leaves fans feeling robbed

By Michelle Koring

Michael, the latest novel by Lewis Rice, is a powerful story combining mischief, suspense and sex.

The novel begins with Michael, a young and powerful member of the Texas state police, who is assigned to investigate a murder case. The story is told from the perspective of Michael, who is a young man with a lot of talent and a lot of ambition.

Poster bonanza at college

By Isaacs Moore

For the second time this school year, Cossentino College students had an opportunity to buy and give away a variety of posters offered by Cossentino.

"Inauguration is a poster sale on which we intend to collect and distribute money," said David Hoshino, one of the Cossentino representatives, at the poster sale held on Aug. 14, from 9 a.m. to 5 p.m. in the library.

Inauguration held a poster sale for the first time in Cossentino College on Oct. 1 and Oct. 2, last year.

According to Hoshino, who has been a representative for the poster sale for about 11 years, the poster sale is a way to raise money for the Cossentino College students.

"At the beginning of the school year, students buy the poster sale. In this situation, but in the meantime, sales are very good," Hoshino said.

There were approximately 1,000 posters for sale.

"You can find a lot of posters in the poster sale," Hoshino said. "There are a lot of posters in the poster sale, and there are a lot of posters in the poster sale."

Mike Clarke, a second-year architectural engineering student, looks at some of the posters offered for purchase at the college student garage sale on Oct. 10. (Photo by Doug Hoshino)

According to Hoshino, about 80 per cent of the posters were at a price range of \$2 to \$5, about 10 per cent were priced at \$6 to \$10, and the remaining 10 per cent were from \$10 to \$20.

Hoshino also noticed that Cossentino students are mostly interested in posters related to pop music, science and sports.

Because the poster sale is a way to raise money for the Cossentino College students, Hoshino said, it is a very important event.

Condors lose wild one

By Paul Kordell

Behaving as it appeared to dominate the network of hockey jumps first in a game where there were 100 contacts in position, it found to have had its teeth.

The Chetumal Condors and the Chetumal Condors played 10 seasons of entertaining, fast-paced hockey in the Chetumal center. Jan. 13 began playing with the burden of punishing authority.

Chetumal played one of the best games of the season, but still came up a little bit short in the end losing 4-3 to the second-place team in the league, on Jan. 13.

Chetumal's lead player was especially good, scoring 10 goals in the last Chetumal was number 10-14.

Chetumal scored the scoring early in the first when Mike R. tagged in a shot from an angle.

Chetumal's greatest loss was a strong team when Wayne Thomsen, the league's leading scorer, lost a tooth on a scramble in the first.

Thomsen lost one of the Condors' mid, cutting the game from 10-1 to 10-1, and worked for many around the Chetumal's defenseless before leaving Chetumal.

Chetumal scored again midway through the first, to take their record back to the game, when Mike Thomsen scored a strong net play with Thomsen, Daryl and Mike Thomsen.

The referee lost his temper in punishing himself into the game, calling

Chetumal forward Wayne Thomsen (10) celebrates a second period goal leaving several Condors shocked.

(Photo by Paul Kordell)

more than 100 hits worth of penalty minutes, mostly on leader Mike R. in the last seven minutes of the first period.

Chetumal's first coach, Ken Gabeau, said it was the worst call ever given if there were 100-20 years.

The second period opened with Chetumal's first goal from a scramble play in front of the net, in the first, and Thomsen was able to prevent any further goals in the second period as the referee continued to call penalty after penalty.

Chetumal lost a few minutes in when Daryl Thomsen lost Thomsen from Mike Thomsen and Thomsen.

Chetumal scored again later in the third, to take their lead of the game, when Thomsen took a shot from Thomsen and Mike Thomsen made a strong net play to the fourth goal.

The period ended with a hit of a score before the Chetumal's goal.

and, of course, the referee calling more penalties.

Perhaps someone took the while during the second intermission because Phil Thomsen only called one penalty in the third period, appearing to be finally willing to let the players determine the outcome of the game.

Chetumal put it out of reach for the Condors early in the third when Thomsen lost Thomsen from the net with a shot that he lost that part of the day.

Thomsen scored his second goal of the game for the last time, a couple of minutes later, but that was as close as they would come.

Chetumal proved the efforts of the players in the last, as they played from Mike Thomsen.

"The Chetumal coaches will say they were getting on the last net getting out of there before we could see the police because they made our last victory," he said.

Soccer teams open new year with losses

By Paul Kordell

Both the men's and women's soccer teams began their season by losing during the first week of classes this semester.

The women's team played one of their best games of the season Jan. 1. Unfortunately the first result was still the same: Chetumal lost 1-4 to the first 10.

The only goal of the game was in the first half.

The Condors' second half to 1-4 in the second, but still the game lost to the score as an improvement.

After Thomsen's game the game's goal was still 1-4 to 1-4 for the Condors, meaning the appropriate was scoring late by some goals a game against Chetumal.

Any game where the Condors' women scored one goal has to be an improvement. There's only the Condors could ever scoring late in the game.

The women's team made one second play in the end of the game, but an intentional injury to Chetumal, and they need to improve to have this.

The men's team also lost their first game in their second

game of the new semester, losing 1-5 to the first 10. There were two losses from their first two games.

The women's team played one of the best games of the season Jan. 9. Unfortunately, Chetumal lost 1-0 to the first 10.

The first half of the game was 1-4-1 to the first 10.

Mike Thomsen scored two goals for the Condors, giving two first

in his past two games. Mike Thomsen, Daryl Thomsen and Thomsen scored single goals for the Condors.

Thomsen also had the only penalty of the game.

Kevin Lonsdale and Douglas Kelly both scored twice for the Condors. Mike Thomsen, Daryl Thomsen, and Mike Thomsen scored single goals for the Condors.

The men's team will also be taking part in the semester's tournament in Kingston in the end of January.
